

Recycle City Tipping Structure

Effective 04/01/2023

VOLUME RATE QUALIFICATIONS:

Certain customers may qualify for a volume rate discount based upon the monthly amount of waste tonnage they tip at Recycle City. The rates are based upon the calendar month. These rates do not apply to waste tipped by the St. Peters Solid Waste Department. The rates are as follows:

Tons Per Month	Compacted Waste*	Bulky Waste*
1000	\$42.02	\$45.60
500	\$44.42	\$47.74
250	\$45.62	\$48.85
100	\$48.02	\$51.01
50	\$50.42	\$53.17
25	\$52.82	\$55.34

*Price Billed Per Ton, includes taxes and landfill fee of \$3.20 per ton

Note: Customers that qualify for the volume based billing will be billed monthly and charged according to their tonnage qualification. If a customer does not provide the minimum monthly amount of 25 tons they will be charged at a rate of \$90.00 per ton. A customer that does not meet the minimum tonnage for two months during a calendar year will have their account terminated.

TO QUALIFY FOR MONTHLY ACCOUNT:

1. Customer shall have a self-powered dump trailer;
2. The customer must have used or use the City of St. Peters Transfer Station for at least 3 months to determine the account can meet the 25 ton minimum;
3. All license plate numbers of vehicles that will be allowed to charge must be provided;
4. Requests for account information must be made via email only.

Volume Rates: This is a series of rates which are available to any customer providing a minimum of 25 tons a month on a consistent basis.

Volume Billing Account: This is a billing account set up at Recycle City to permit certain customers a discount based upon volume of trash tipped. To qualify a customer must tip at least 25 tons per month on a consistent basis. Only the tons billed to the account will count toward the monthly total. Any account that enters delinquent status will be suspended until payment is received in full. A monthly charge limit will be established for each account.

Thank you for your request. In order for us to process this request, we will first need the license plate number(s) that are associated with the vehicle(s) being used to haul the waste to our facility. Once we have that information we will begin tracking your tonnage to determine what category or tonnage tier you will be utilizing. Also, will you be using a dump trailer or automated method of tipping, or will you be hand unloading your waste? Please note that we prefer automated tipping (i.e. dump trailers), and in any situation where there is an extended wait time, automated tippers receive preference and ability to dump before the hand unloaders. We do not allow a pull off, where a loader or structure is used in conjunction with a chain to pull off or assist in unloading of the vehicle.

Please be advised of the following:

Effective April 1, 2023

- The Standard Gate Rate will be increased from \$84.00/ton to \$90.00/ton.
- A \$25.00/unit fee will be applied to all hot tubs dumped on the tipping floor additional to the weight of the load.
- We are transitioning to a zero-tolerance program on all prohibited items. This means, if paint cans, tires, brush and yard waste, flammable and toxic materials, etc., are dumped on the tipping floor, a \$50.00 service fee will be charged in addition to the tonnage and the customer will be required to remove those items from the load.
- If the load is heavily contaminated or mixed with any amount of yard waste at all – the load will be reloaded on the customers vehicle or container, will not be accepted at this facility and the customer will be responsible for the same \$50.00 service fee as a stand-alone charge.

Please be advised, if you are operating a container service; please notify your customer that no amount of yard waste is acceptable and is prohibited from placement in the dumpster provided by your organization. State Law Prohibits disposal of yard waste in the landfill. Therefore, we have enacted the same zero tolerance program will refuse acceptance of any load containing any amount of yard waste. For your convenience and insurance of acceptance, please scan your load and remove all of the prohibited items as described above before entering our property. You will be required to remove your tarp prior to entering the tipping floor, and our staff will inspect your load.
