

MoDOT FACT SHEET

Temporary One-Way Veterans Memorial Parkway between Cave Springs Boulevard and Mexico Road

What is the scheduled construction work?

MoDOT will temporarily restrict Westbound Veterans Memorial Parkway between Cave Springs Boulevard and Mexico Road to one-way traffic. The temporary conversion begins overnight **Wednesday, May 10, 2023**, weather permitting.

Why is this construction needed?

A new overpass is being constructed to allow traffic on Veterans Memorial Parkway to go under Cave Springs Road without stopping at a traffic signal.

Is this change permanent?

This is a temporary situation, not a planned permanent change from two-way to one-way outer road traffic. We urge motorists to consider alternate routes or allow for extra time for access to their destination.

- Veterans Memorial Parkway traffic can only go in the eastbound direction (no westbound traffic) between Cave Springs Boulevard and Mexico Road.
- This temporary change is expected to last for the majority of 2023.
- Once construction is completed, this section of Veterans Memorial Parkway will be returned back to the normal two-way traffic configuration.
